Management, Teamwork, Communication, Problem Solving,

EDUCATION

Degree/Course	Institute/College	University/Board	Percentage/CGPA
MCA	Dr. D Y Patil School of MCA, Pune	Savitribai Phule University Pune	80.68%
ВСА	Raje Ramrao Mahavidyalay, Jath	Shivaji University Kolhapur	61.69%
HSC	Shri Banshankari Vidyalaya & Jr. College, Banali	Maharashtra State Board of Secondary and Higher Secondary Education, Pune	63.08%
SSC	Shri Banshankari Vidyalaya & Jr. College, Banali	Maharashtra State Board of Secondary and Higher Secondary Education, Pune	66.20%

PROJECTS

Project 1- Asset Tracking & Management System

Language: - HTML, CSS, JavaScript, React JS, MongoDB, Bootstrap.

- Created a secure login system for users to access the asset management features.
- ❖ Designed a feature to efficiently track, manage, and update assets, including their quantities and statuses.
- ❖ Added barcode scanning and maintenance alerts.
- ❖ Designed a user-friendly dashboard to access vital asset data and key metrics quickly.
- ❖ Incorporated an external API to expand the project's capabilities, enhancing data retrieval and reporting.

Project 2 – ERP System

Language: - HTML, CSS, JavaScript, ReactJS, Redux

- ❖ Developed a comprehensive accounting module to manage financial transactions, budgets, and reporting.
- ❖ Implemented an HR module for employee records, payroll, attendance tracking, and performance evaluations.
- Created a module to monitor inventory levels, handle procurement, and manage the supply chain efficiently.
- ❖ Designed a CRM module for managing leads, customers, and sales processes.
- Developed a module for production planning, managing bills of materials, and optimising manufacturing processes.

EXPERIENCE

Costing Expert: Pune

- ❖ Assisted in software testing to ensure functionality and performance standards.
- Collaborated with team members to identify and troubleshoot software issues.
- ❖ Developed user documentation for software features and functionalities.
- A Participated in daily stand-up meetings to discuss project progress and challenges.
- * Conducted research on best practices for software development processes.
- ❖ Developed, tested, and maintained software applications to meet specified requirements.
- Created technical documentation for software projects.
- Contributed to continuous improvement initiatives for software development processes.
- Conducted unit testing of code modules and bug fixes.
- Assisted in the design, implementation, and maintenance of web services.
- * Researched and developed software solutions to meet customer needs.
- ❖ Documented application changes throughout the development process.
